TECHNICAL PROJECTS

MY TEAM MULTIPAGE WEBSITE • [Live version](#) – [GitHub repo](#)

A three-page website with a contact form and a responsive design for mobile and wide screens. Built with React, SCSS and set up with Parcel.

JOB LISTINGS WITH FILTERING• [Live version](#) – [GitHub repo](#)

A responsive job listing app that allows filtering by tags. The user can add and remove filters to get a refined result. Built with React and CSS.

FRONTEND MENTOR URL SHORTENER • [Live version](#) – [GitHub repo](#)

A responsive landing page built with HTML, SCSS and Javascript. The user can copy the result to their clipboard

and have their previous searches the next time they visit the page.

VEGAN FOOD SPOTS • [Live version](#) – [GitHub repo](#)

An app that shows vegan food spots nearby. Built with Express, MongoDb, Javascript, HTML, CSS3 and the Mapquest Api. Cities available: Miami, Miami Beach, New York.

USER DASHBOARD • [Live version](#) – [GitHub repo](#)

A responsive dashboard built with HTML, SCSS and Javascript. Layout built using Grid and Flexbox.
